SUMMARY

Computer Engineering student with a background in programming and multimedia production. Currently strengthening my programming skills through coursework and regular practice, with a focus on JavaScript, Node.js, Python, and Java. Certified in Python and Java through Certiport. Seeking an internship opportunity where I can gain practical software development experience, apply my technical knowledge, and continue learning from an experienced development team.

EDUCATION

Far Eastern University – Institute of Technology

Bachelor of Science in Computer Engineering | 2023 – Present

- Developing an academic thesis featuring a pH and soil moisture monitoring system for calamansi plants, with automatic dispensing and AI-based care recommendations.
- Developed the frontend and UI/UX of Healthbase, a web-based Barangay Health Record Management System for managing health records and generating reports.
- Developing practical skills in JavaScript, Python, Java, Node.js, web/backend development, networking, and computer systems.

De La Salle – College of Saint Benilde

Bachelor of Multimedia Arts | 2018 – 2023 (Graduated)

- Developed skills in graphic design, video editing, digital illustration, and multimedia production.
- Created digital content and visual materials for academic projects and promotional purposes.
- Gained experience in creative design and multimedia production.

CERTIFICATIONS

Information Technology Specialist – Python

Certiport, 27th March 2025

Information Technology Specialist – Java

Certiport, 10th July 2025

TECHNICAL SKILLS

- **Programming:** JavaScript, Python, Java
- **Web & Backend:** HTML, CSS, Node.js, Express.js, PostgreSQL, basic HTTP and REST API concepts
- **Development Tools:** Visual Studio Code
- **Design & Multimedia:** Adobe Photoshop, Adobe Premiere Pro, Adobe After Effects, Canva

EXPERIENCE

Happy Benefit Distribution Corp.

Intern — Multimedia Production | September 2022 – November 2022

- Created video edits and graphic designs for company projects and promotional materials.
- Collaborated with team members to complete assigned tasks and meet project requirements.
- Communicated with colleagues and supervisors regarding project instructions, revisions, and feedback.
- Managed assigned tasks while working within project deadlines.

FEU Institute of Technology – Computer Engineering Organization

Creatives Junior Officer | September 2024 – August 2025

- Created digital graphics and visual materials for organizational activities, announcements, and events.
- Collaborated with organization members to complete creative tasks and projects.
- Assisted in preparing visual content based on organizational requirements.
- Incorporated feedback and revisions from team members to improve final materials.
